

**Chris Worfolk  
Loony Party Candidate  
2015 Manifesto**

# Introduction

Elect Chris Worfolk, Monster Raving Loony Party candidate for City & Hunslet (Leeds City Council). Vote for insanity. You know it makes sense.

I represent a different kind of politician. Of course, that is what all politicians say, and it is up to you to decide whether I offer a real alternative.

I am a loony. An idiot. I do not have the answers. This, however, does not differentiate me from many politicians out there. The difference is that I know it.

That's why evidence-based policy is so important. It's time to send this message to the establishment. It has been scientifically proven that the best way to do this is to vote Loony.

What proof you ask? Vote Loony!

**"The only wasted vote is one that is not used."**  
Howling Laud Hope

## Vote Chris

Chris is standing for election for Leeds City Council in the ward of City & Hunslet.

## Party policies

I am a candidate for the Official Monster Raving Loony Party. However, the policies put forward in this manifesto represent my own views and I do not claim the party endorses all, or indeed any of them.

## Why not an MP?

Parliament has been dissolved and therefore technically there are no MPs at the moment. That is the main reason why it is not Chris Worfolk MP. Other reasons include that I have never been an MP, and that I am not running for Parliament.

# Policies

## Economy

**Ban banks** from opening between 9am and 5pm because we are all at work during those hours.

Fit air bags to the **stock exchange** in case of a crash.

**Bankers' bonuses** must be backed up by symmetrical bankers' deductions if they lose money.

Clear the **national debt** by putting it all on a credit card.

A second **Monopolies Commission** will be created, thus ending the first commission's monopoly on monopoly investigations.

Introduce a **99p coin** to save on change.

## Employment

Increase the **minimum wage** by linking it to the cost of five pints at Wetherspoons.

We will complement the minimum wage with a **maximum wage**. Bosses will only be able to pay themselves 10 times what they pay their staff. If they want to pay themselves

more, they have to pay their staff more too.

**Mondays** will be banned.

Reduce **discrimination** by requiring all candidates to attend interviews wearing a paper bag over their head.

## Health

Increased focus on **mental health**, obviously. We are the Loony Party after all.

Reduce **waiting times in A&E** by allowing people to pre-book emergencies.

Make **chocolate** available on prescription.

Make **placebos** available on the NHS.

Reduce **waiting times** for treatment of transparency, bloaty head and slack tongues.

## Education

Reduce **class sizes** by moving the desks closer together.

Stop teachers worrying about **Ofsted** by making all inspections "surprise inspections".

Increase student interest in history by reclassifying **Game of Thrones** as non-

fiction.

## Housing

Prevent landlords from ripping **tenants** off with their deposit by requiring housing deposit deposits.

**Ban letting agent fees** and require letting agents to provide references from previous customers to show they are honest.

## Environment

Reduce the effect of **climate change** by petitioning the United Nations to kill all the humans.

Re-balance the grey squirrel **red squirrel** situation by painting half of the grey squirrels red.

Greener energy will be generated by attaching miniature wind farms to MPs' mouths.

**Four wheel drive** cars will only be allowed to drive off-road.

## Justice

We will reverse the prison book ban. It will be replaced by a mandatory one book per week policy

# Policies

that prisoners will be tested on every Wednesday.

Prisons are like bed and breakfast these days (apparently) so to **generate revenue** we will sell holidays in them.

Introduce a **European Court of Human Lefts** to balance the European Court of Human Rights.

“Life means life” prison sentences to be introduced for people who rustle sweets at the **theatre**.

Launch a **public inquiry** into why key cutting and shoe repair are always inexplicably combined into the same shop.

Reduce crime by introducing a **Discworld**-style Guild of Thieves.

## Defence

The **Ministry of Defence** would be banned from operating anywhere other than British soil on the grounds that anything else is “attack”.

## Equality

Issue all **working women** with a hammer to smash through the glass ceiling.

Scrap the **tampon tax**.

Reduce the gender gap in

**strip clubs** by requiring them to hire at least 20% male dancers.

Encourage **Mad Pride** events to help end the stigma against mental health problems.

## Democracy

Remove the **voting age** to allow any citizen to vote.

Introduce an **elected monarchy**. We will then elect a new king or queen every five years.

The **House of Commons** will be placed on wheels so that it can move around the country.

## Domestic Policy

Legalise **all drugs**, and tax them. Treat addicts like victims and not criminals.

Abolish **Daylight Saving Time** as it does not in fact save any time.

Replace **London Underground** trains with livestock trucks to give commuters more space.

Take **Leeds United** into public ownership.

Create a fast and slow

lane down major shopping streets to help prevent **pedestrians** getting in each other's way.

Continue our pioneering work of entering into **co-ALE-itions** with local breweries.

Ban **greyhound racing** to stop the country going to the dogs.

## Foreign Policy

Reduce tension with Argentina by moving the **Falkland Islands** closer to the UK.

Reduce our dependency on foreign beers by offering significant tax incentives to **microbreweries**.

## Other Policies

Re-name American football to **soccer** to avoid confusion between the two.

Re-introduce **literal surnames** such as Sally Accountant or John Office-Manager.

If in doubt, I will ask other politicians what they would do, and then **do the opposite**.
